

# GRANT WRITING WORKSHOP FOR THE NIH R21 EXPLORATORY/ DEVELOPMENTAL GRANTS

## Who Should Attend

- Are you interested in learning about the NIH exploratory and developmental R21 Award to carry out 2 years of impactful research?
- Are you a competitive and aspiring **junior to mid-career faculty member**?)
- Do you work at one of our [Emory/Georgia TRAC international partner sites](#)?
- **TRAC Pilot Grant Awardees are encouraged to attend**

## Workshop Overview

- Janet Gross, PhD will lead a 2-hour workshop to review NIH R21 NIH Exploratory/Developmental Research Project Grant Funding Opportunities - R21 Clinical Trial Not Allowed ([PA-25-304](#)) and Clinical Trial Required ([PA-25-306](#)).
- The focus will be on understanding the funding opportunity, and planning your grant proposal and research strategy.
- If you are interested in putting together a **TB research proposal** this workshop is geared to helping you prepare for a competitive application.

## Workshop Preparation

- Please review NIH's comparison of Research Project Grants, including the R21 [here](#).
- Also review the [NIH RePORTER site](#) and study abstracts for funded [R21 tuberculosis awards](#).
