

TB WORKS IN PROGRESS

JEFFREY COLLINS, MD, MPH

**PLASMA METABOLITE SIGNATURES
TO DIAGNOSE TB DISEASE AND
MONITOR TREATMENT RESPONSE:
FROM DISCOVERY TO TRANSLATION**

Dr. Collins is an Associate Professor of Medicine at the Division of Infectious Diseases, Emory University School of Medicine, and Co-Director of Emory/GA TRAC's Bioinformatics and Integrated Systems Biology core. His research interests span clinical, translational, and epidemiologic tuberculosis (TB) research with a focus on using approaches in high-resolution metabolomics and lipidomics to identify novel biomarkers and host-pathogen interactions across the spectrum of TB infection and disease.

 **Friday August 16, 2024**

 **9 - 10 am**

 **CNR Room 3001 and Zoom**
