

TB AMONG THE NON-US BORN IN DEKALB COUNTY, GEORGIA

**ALAWODE OLADELE,
MD, MPH**
DeKalb Public Health

Dr. Oladele currently serves as the Supervising Physician and Laboratory Director in the Department of Infectious Diseases and Refugee Health at DeKalb Public Health. His professional journey reflects a lifelong commitment to infectious disease control, refugee and immigrant health, and emerging global health challenges. He has directed HIV/AIDS, tuberculosis, refugee health, and community health projects across the Caribbean, West Africa, East Africa, and Central Africa. Dr. Oladele continues to integrate his clinical expertise, global experience, and passion for equity to strengthen operations and ensure that vulnerable communities worldwide have access to holistic, high-quality health services.
