

TB Works in Progress Seminar

# Lung function impairment in TB and HIV/TB co-infection: an observational cohort study in South Africa

**FRIDAY**

 **January 23, 2026**

 **9-10 AM**

 **CNR 3001 & Zoom**

<https://zoom.us/j/91744485202>

Dr. Marll is a Pulmonary and Critical Care research fellow focused on tuberculosis and post-tuberculosis lung disease. His work integrates hypothesis-driven and unsupervised analytic approaches to define functional and radiographic disease sub-phenotypes, with the goal of identifying pathophysiologically distinct groups that may be targeted with novel therapies.

**Michael Marll, MD**  
**Research Fellow,**  
**Emory University**
